Master of Medical Science55
Master of Occupational Therapy56
Master of Physician Assistant Science57
Doctor of Physical Therapy59

PART V: OTHER INFORMATION

Appendix 1: Class of 2009: Post Graduate Survey61

POST-GRADUATION CAREER REPORT – CLASS OF 2009 OVERVIEW

PURPOSE

The purpose of this survey is to determine employment and graduate/professional school career information for Saint Francis University graduates. The information will also be used in tracking trends, evaluating programs and services, and comparing data across the various disciplines.

PARTICIPANTS

Every Saint Francis University Graduate from the Class of 2009 (657) received a follow-up survey. The Class of 2009 consists of December 2008 graduates and May/Summer 2009 graduates.

SURVEY METHODS

Over the course of one year, the Office of Career Services used several methods to obtain data. First, each graduate received a survey in November 2009 and two months later, each non-respondent received another survey in the mail. The next strategy included contacting advisors and academic departments to discuss and obtain graduation data. In addition to mailings and faculty contact, follow-up phone calls and emails were made to non-respondents. The use of these methods provided for a data collection rate of 90%.

INFORMATION GATHERED

Survey recipients were asked to report the following information:

- ⊙ Employment Status (Full or Part-time, or still job searching)
- ⊙ Employer
- ⊙ Job Title
- ⊙ Current Salary
- ⊙ Graduate or Professional School Plans
- ⊙ Methods used to obtain current status
- ⊙ Length of time to obtain current status
- ⊙ Satisfaction with current position

All of the information contained in this report is based on the surveys returned to the Office of Career Services or retrieval of data via phone calls and emails. It should be noted that not all of the questions were answered on each survey (such as salary information), so the results are based on the data received.

The formula used to calculate the overall employment/graduate school rate is as follows:

$$\frac{\# \text{ Employed} + \# \text{ Attending Graduate School}}{\text{Total \# of Responses}}$$

**POST-GRADUATION CAREER REPORT –
CLASS OF 2009
TRENDS AND ACKNOWLEDGEMENTS**

Saint Francis University's overall employment/graduate school rate remains competitive for 2009 at **98.9% with 97.8% gainfully employed or attending graduate school within 6 months.**

In comparing the data from the Class of 2009 to prior years, the results are as follows:

- Graduate school attendance increased by 2%, from 20% to 22%.
- Those working *and* attending graduate school remained constant at 4% for both 2008 and 2009.
- The response/data collection rate of **90%** for this year's class of 2009 was slightly lower than the **93%** that was documented for 2008.

Specific statistical data can be found on the graphs and charts in the pages following the Executive Summary. Overall, this information will be useful to students, alumni, prospective students, faculty, and administration. All questions regarding this information may be directed to Beth McGregor, Associate Director of Career Services, at Saint Francis University.

ACKNOWLEDGEMENTS

Michael Blasic (Graduate Assistant, Career Services)	→	Compiler of physical report
Melissa Stasik (Student Career Coordinator, Career Services)	→	Assistant data collector
Beth McGregor (Associate Director, Career Services)	→	Coordinator of data and tracking responses
Julie Barris (Director, Career Services)	→	Supervisor throughout report
Dr. Frank Montecalvo (Vice President for Student Development)	→	Supporter of project and office

Many thanks to the faculty and staff who provided Career Services with updated information about the class of 2009.

Executive Summary

Within 6 months of graduating, **97.8%** found employment or enrolled in graduate school. Of the 97.8 %, **95%** were employed or earning a degree in their field or related area.

Less than 1% secured positions between 7-8 months after graduation. Of the remaining, **less than 1%** took 9 months or longer to find employment.

Within 9 months: **98.9%** secured employment or graduate school with **95%** employed in their field or related area.

Survey Data Collection Rate: 90% 2008 rate was 93%.

Of the 90%:

- **78%** are employed...
 - *Full-time: **65%** *Part-time: **7%** *Self-employed: **<1%**
 - *Full-time/Part-time Status Unknown: **28%**
 - *Employed *and* attending graduate school: **4%**
- **22%** of 2009 undergrads are attending graduate school only
Of the 26% enrolled in graduate programs, more than 68% are enrolled in an allied health graduate program at Saint Francis University.

Job Satisfaction

	2009	2008	2007
Very Satisfied	64%	66%	64%
Somewhat Satisfied	29%	28%	28%

Outcomes by Major (majority within 6 months, <1% by 7-8 months) (based upon data collected)	
Accounting 96%	Physical Therapy (Bachelor's) 100%
Biology 100%	Physical Therapy (Doctor of Physical Therapy) 100%
Business Administration 100%	Physician Assistant (Bachelor's) 100%
